

Creating a 24-7 mobile Prayer Watch

Simple Strategy

STEP 1

Create a "Group" on WhatsApp, Telegram or Signal.

STEP 2

Choose a *name and profile pic* for the Group related to the purpose and focus of the Group.

STEP 3

Add members to the Group by adding the names one by one. You can also use the group invite link – this link can be sent to people and they can join the Group by clicking on the link. Make sure to ask individuals if they want to join before you add them.

STEP 4

Post an [Invitation to join the Group](#), which members can then forward to their friends.

STEP 5

Each person chooses a *specific time (an hour or half an hour)* of the day to pray. Some may start with two or three hours per week. Update and post the [Schedule](#) so members can see all the available hours.

STEP 6

Make *regular simple prayer guidelines (prayer pointers)* available that can highlight your prayer focus. Prayer Guidelines and more resources are available at www.jwipn.com/7-days-wall/.

STEP 7

Post *daily reminders* with the updated roster and prayer guidelines. MAKE SURE members adhere to their hours and the [Protocols](#) (a set of guidelines to enhance the flow of prayer in the group).
